

BioHouse Seminar

Biology for the 21st Century – Integrated Science 110

Details

INTEGSCI 110

Credits: 1

Class number: 30241

Schedule Fall 2024:

- Mon. 5:00-6:15 p.m.

Location:

- Carson Gulley, Upper Gulley Program Room

Prereqs/Requirements:

- BioHouse Residential Learning Community student

Instructor:

- Jon Pauli, Ph.D.
jnpauli@wisc.edu

Course Description

This course introduces students to the myriad of majors in biological sciences on the UW-Madison campus, core concepts of modern biology, and the global challenges around human and biosphere health, food security, and natural resource availability. Explore majors, learn about beyond-the-classroom opportunities, and begin to understand how you can become part of the thriving scientific community at UW- Madison by interacting with graduate student mentors, bioscience faculty, and scientists in our local community.

This 1-credit seminar course will introduce you to the many subdisciplines and careers in biology and illustrate how biology can help solve society's pressing issues. Invited guest speakers and small group discussions will help you explore the role of biology in the context of modern research.
