All GreenHouse residents have an amazing and unique opportunity to enroll in the Roots Seminar!

In the Roots Seminar, students will be challenged to think deeply about themselves and their place in the social and biophysical communities of which they are a part. We will also have Community Meals where we invite guest speakers and garden work days where we will learn about and contribute to sustainable agriculture on campus.

Seminar counts for: CALS first-year seminar, Sustainability Certificate, and LAS credit for L&S
