**Please enter your bank account information and click on the 'Continue Checkout' button.**

IMPORTANT: Do not attempt to use credit card cash advance checks, brokerage account checks, or any check marked "Do Not Use for ACH". Your debit or credit card number will NOT work. You will need to enter your bank account number.

Only checks from regular checking accounts at U.S. domestic banks (including most credit unions) may be used for electronic check payments. Be sure to copy the routing/transit and account numbers very carefully from your check. If you enter incorrect values, or if you attempt to use a check that is not from a regular U.S. domestic bank checking account, your electronic check will be returned.

If you are unsure of whether or not your check can be used or what routing/transit and account numbers to enter, call your bank, ask them if your account can be used for ACH, and verify the correct numbers to use.
